DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2, 3-11, and 13-18 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest that wherein the setting information includes NUT table information that contains a start transmission device ID and an end transmission device ID that indicate a section in which said non-preemptible channel should be established, a type of setting for setting said non-preemptible channel, and a relay direction; and said channel establishment unit recognizes and established said non-preemptible channel via a designated write address in which the NUT table information should be written, as specified in independent claims 1, 9, 10, and 18.

The prior art does not teach or fairly suggest that wherein when the BLSR employs line switching that is performed at ends of a line in which a fault occurs as the fault bypass control condition, the route switch control units in the transmission devices located at the ends of the line in which the fault occurs perform route switching if a fault bypass route does not have any section in which the NUT channel has established, and do not perform route switching if a fault bypass route has a section in which the NUT channel has been established, as specified in independent claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
